SURVEY FOCUSED ON ICT

The T@SK Project (TOWARDS INCREASED AWARENESS, RESPONSIBILITY AND SHARED QUALITY IN SOCIAL WORK), co-founded by the Erasmus+ framework, is focused into the development of the Albanian Social Work system, into its modernization and its alignment with European standards of Social Services delivery. One of that alignments concerns how to improve ICT on the Albanian Education System in the three Albanian University partners of the project: Universiteti i Tiranës, Universiteti i Elbasanit and Universiteti i Shkodrës.

This is why we are asking for your participation in this survey focused on ICT usage for everyday life and work. This represents a very valuable information to get a better understanding about ideas, use and awareness of ICT and, therefore, that will take better decisions in which areas focus the deployment of the project goals.

Responses will be anonymous and confidential (**please see privacy statement below**). No personal information will be disclosed by any means and aggregated results will be presented and shared with the participants interested in knowing them.

This survey should take no more than 10-15 minutes, and we presume it will be quite interesting and easy to fill up.

We really appreciate your collaboration!

PRIVACY STATEMENT

The T@SK Project (TOWARDS INCREASED AWARENESS, RESPONSIBILITY AND SHARED QUALITY IN SOCIAL WORK) is carrying out a survey/interview regarding the ICT Skills of students, teachers and administrative staff in three Albanian Universities (Universiteti i Tiranës, Universiteti i Elbasanit and Universiteti i Shkodrës), within the EU Project T@SK, co-founded by the European Commission with the Grant Agreement No 585626-EPP-1-2017-1-IT-EPPKA2-CBHE-JP. Therefore it is necessary to gather information from participants regarding ICT skills and use.

Participation is voluntary, therefore there is no obligation to take part in this particular activity. Results of the present survey/interview will constitute the basis for the project activities and they will be used within the T@SK partnership to implement the overall project activities and develop further resources.

Any personal information collected will be strictly confidential and anonymity will be guaranteed. The anonymized survey results and the subsequent materials will be elaborated in aggregation and no individual information will be analyzed and/or disclosed. Finally, all information will be used only by the T@SK consortium and for the T@SK project to produce further materials and resources.

All data will be stored in Spain and hosted in an UCM server with limited and restricted access. No sensible or identifiable data will be used, stored or given to alien individuals by any means or in any time. The personal data will be protected under the European regulation (Reg. UE 2016/679 GDPR), and own ethical compromises of the project and will be used only by the T@SK Consortium and for the T@SK project.
