

## Report for institutional visits in Tirana

During the training in Tirana, 3 institutional visits were realized. The group of professors from Italy, Portugal, Spain, University of Shkodra, University of Elbasan and University of Tirana visited 2 associate partners of the project, Mary Ward Loreto, ShKEJ and Municipality of Tirana, also. Representatives of the organizations presented their work in offering services to specific groups such as women, children, unemployed young men in rural areas, etc. Publications on their work were possible to be handed to professors, who appreciated the work of these organizations and the wide territory covered by the services.

The group had a meeting at the Municipality of Tirana, which was hosted by Mrs. Migena Spaho, Director of Social Services. She made a presentation of the beneficiaries of the services given by Municipality of Tirana, challenges faced during the reform of social services and gaps to be filled by public and/or nonpublic services. The discussion was quite an exchange of knowledge and opinions on social services in different countries and contexts, actual challenges in social services systems, especially in relation to children and families. In Mary World Loreto and Shkej, both executive directs and program managers introduced the organization, their main activities, beneficiaries and stakeholders. The discussion with went through brainstorming on specifics of the activities resources, challenges and paths how to collaborate and mutual collaborations.
