

## Scientific Committee December 18th 2018

### Participants:

Jorge Ferreira, Pablo Alvarez, Maria Ines Amaro (ISCTE)  
Marinela Sota (University of Tirana)  
Galsvinda Biba (University of Shkoder)  
Eda Cela (University of Elbasan)  
Eltona Tila (Ordine Assistenti Sociali)

The meeting is opened at 14:00 on the ZOOM virtual platform.

The meeting is opened by Jorge Ferreira and Eda Cela. Jorge Ferreira asks for feedback with regard to the draft program for the training session to be held in Elbasan (28 January – 1 February).

Ferreira underlines that the session will be devoted to the pedagogical supervision.

In particular, the discussion is structured following the day by day contents of the ISCTE proposal:

DAY 1: Ferreira and Cela discuss on the features of the roundtable foreseen for the first day of the training session. All participants agree that the round table will be led by the academic staff of the universities involved. The participation of students is not foreseen for the first, second and third day of the training session. The diagnostic support technique identification scheduled for the afternoon of the day 1 will consist in the theoretical presentation of the techniques (in the first part of the afternoon).

DAY 2: Ferreira asks for clarification regarding the participation of the Albanian NGO's Social Workers in the round table scheduled for Tuesday (10:00 o'clock). The Albanian partners confirm that invitations will be sent to the Albanian practitioners working in the Elbasan environment.

DAY 3: All participants agree with ISCTE's proposal. During day 3, three groups of participants will be created. The three groups will respectively work on the following topics: 1) the process; 2) the assessment; 3) ethical and deontological issues

DAY 4: Ferreira clarifies the proposal under the label "Supervision architecture model". He explains that this model will help define the guidelines for the supervision of Social Workers that the consortium has to produce as a project deliverable. All participants agree on that point

DAY 5: Ferreira clarifies the function of the debate groups scheduled for the final day of the training session. Since students will attend during the fourth and fifth day of the training session, Ferreira underlines that the training activities will consist in practical activities and exercises.

Eltona Tila confirms the participation of the Ordine Assistenti Sociali Regione Toscana in the training session. The Ordine will bring its practical experience.

All participants agree to schedule another Scientific Committee Meeting for the beginning of January for the discussion of the amended version of the draft produced by ISCTE.

The meeting is closed at 15:00.
